HYDRAULIC AND CIRCULATING OILS

MAGNA CTX WT RANGE

The Castrol Magna CTX WT Range are a series of premium quality circulating oils that represent a significant advancement in circulating oil technology. These oils are manufactured from the highest quality base oils and are formulated with an advanced technology anti-wear additive system, designed to extend service life in a broad range of systems operating under high impact and high shock loading. Castrol Magna CTX WT oils are designed to provide maximum rust and oxidation resistance while allowing the oil to rapidly separate from water, providing exceptional demulsibility characteristics.

Castrol Magna CTX WT oils are engineered for use in MORGOIL™ back-up roll bearing systems (both ferrous and non-ferrous), such as those manufactured by Morgan Construction Company, Danieli, SMS Demag and others. They are also suitable for use on other primary mill and mini-mill bearing application systems.

FEATURES & BENEFITS

- Advanced technology anti-wear additive package: Passes FZG stage 12+ and provides non-corrosive anti-wear protection in high impact and high shock load applications
- Excellent demulsibility: Rapid water separation and hydrolytic stability means increased corrosion protection and reduced down time through prolonged lubricant life, and increased equipment reliability
- Superior thermal and oxidative stability: Provides reliable performance and extends oil life in severe applications
- Minimal deposit formation: Cleaner system and reduced filter change frequency.
- Protection against rust and corrosion: Prevents corrosive activity on bearings and metal surfaces
- Environmentally friendly: Does not contain zinc, phenol, or heavy metals.
