SLIDEWAY OILS

MAGNA SW 32

Castrol Magna SW 32 is a specially formulated slideway lubricant to provide all-round performance with good stick-slip and load carrying performance. It combines controlled frictional characteristics with high film- strength and high load carrying properties to eliminate 'stick-slip'.

Castrol Magna SW 32 is a light viscosity, combined hydraulic and slideway lubricant. Applications include lightly loaded slideways, such as those found on small centre lathes, and combined hydraulic and slideway systems such as in reciprocating grinding machines.

FEATURES & BENEFITS

- Good lubricity – prevents stick-slip of slideways
- High load carrying capacity – prevents wear of highly loaded slideways
- Good demulsification and cutting fluid compatibility – can be used in the presence of water or water-based metalworking fluids.
