

Lube Control Pty Ltd

5:1 Portable High Volume Air Operated Oil Pump Kit

Product Code: DIT110105334

PRODUCT DESCRIPTION

5:1 ratio portable high volume air operated oil pump kit. Suitable for oil transfer in high volume and long distance applications such as truck shop service, fleet facilities and in-plant applications. Supplied with adjustable 2" bung adaptor. Equipped with lubricator, which must be fitted, otherwise warranty will be void.

KEY FEATURES & BENEFITS

- Suitable for oil transfer in high volume and long distance applications such as truck shop service, fleet facilities and in-plant applications
- Corrosion resistant design utilises liquid salt nitriding, nitriding, nickel plating, stainless steel, aluminium and chrome on key components for longer life
- Few moving parts in the air motor assembly means less downtime and low repair cost
- Large air porting design provides efficient use of compressed air supply for continuous pump operation without icing
- Typical fluids handled include motor oil, synthetic oil, hydraulic oil, gear oil, automatic transmission fluid and coolant
- Suitable for oil up to SAE 240
- Supplied with adjustable 2" bung adaptor
- Equipped with lubricator — must be fitted, otherwise warranty will be void
