

Grease Gun with Electronic Grease Meter

Part Numbers

GGUN-400-LEV-MET, GGUN-450-LEV-MET,
GGUN-400-PG-MET, GGUN-450-PG-MET
0102525, 0102525-1, 0102525-2

Description

Take the guesswork out of greasing. Precise lubrication is now possible with Fat Adder's grease gun and electronic grease meter. An Assalub electronic grease meter is coupled to a manual grease gun to accurately read the amount of grease being exerted by the grease gun.

The combination of grease gun with electronic grease meter is available with 4 types of grease guns:

- 400g lever grease gun with electronic grease meter
- 450g lever grease gun with electronic grease meter
- 400g pistol grease gun with electronic grease meter
- 450g pistol grease gun with electronic grease meter

Assalub grease meter is available separately that will suit all other grease guns including battery operated or pneumatically driven grease guns.

The meter displays the amount on large digital display. The numbers are 9mm and are easily to read and a the screen back light helps in dark areas. The units can be changed to display cm³, g, oz, or fl.oz.. The grease meter counter is resettable to zero.

With our grease gun and electronic grease meter combination it is now possible to lubricate the exact amount according to bearing manufacturer's recommendations. This will give the bearings a longer life and reduce grease consumption.

Technical Properties

Grease Meter

Material, housing:	Aluminium, anodized
Seals:	NBR
Working pressure:	Max 70 MPa (10,000 psi)
Flow:	Max 1,000 cm ³ /min
Measuring accuracy:	±3 % up to 30 MPa (4,400 psi)
Height of digits:	9 mm
Number of digits:	4
Battery:	1 x AA (1.5 V)
Medium:	Grease up to NLGI 2
Weight:	0.3 kg

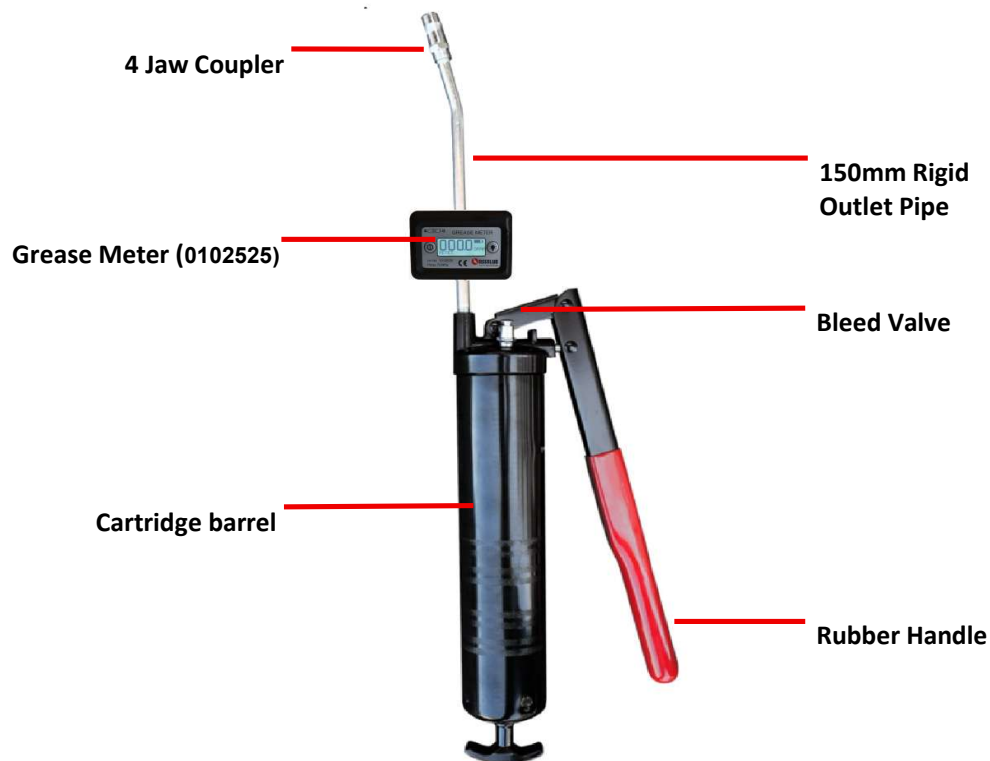

Ordering Details for Meter Only

Part Number:	Inlet and Outlet
0102525	1/8BSP
0102525-1	M10
0102525-2	1/8NPT

Ordering Details for complete Grease Gun with Electronic Grease Meter

Part Number:	Inlet and Outlet
GGUN-400-LEV-MET	400g lever grease gun with electronic grease meter
GGUN-450-LEV-MET	450g lever grease gun with electronic grease meter
GGUN-400-PG-MET	400g pistol grease gun with electronic grease meter
GGUN-450-PG-MET	450g pistol grease gun with electronic grease meter

Lever Grease Gun with Electronic Grease Meter

Operation Type:	Lever Action
Seals:	NBR
Working pressure:	Max 31 MPa (4,500 psi)
Flow:	Max 7cm per stroke
Outlet pipe:	150mm Ridged
Coupler:	4 Jaw
Air bleed Valve:	Yes
Grease Meter:	0102525
Handle:	Rubber
Lubricant:	Up to grease up to NLGI 2
