Perma Brass Extensions 1/4" BSP

Minimising the pressure loss between single point lubricators and lubrication points is an important factor for achieving long term, reliable lubricant delivery. The range of accessories available from perma have been carefully selected to ensure that pressure losses are minimised and that installations will stand the test of time in harsh operating environments.

perma lubricators have a 1/4" BSP male thread at the grease outlet. Where reducers, elbows or extension are required to facilitate installation it is important to adhere to the following guidelines:

- When using reducing adaptors down to fine threads such as 6mm metric or 1/4" UNF select stainless steel to avoid breakage
- Minimise the number of elbow fittings
- Always select full bore elbows

Product

SKU	Description
52785	Extension brass 85 mm 1/4" BSPP F – 1/4" BSPT M
527125	Extension brass 125 mm 1/4" BSPP F – 1/4" BSPT M
