Perma 2 Point Heavy Duty C-section Bracket

There are two main categories of brackets: Standard Duty and Heavy Duty. Both categories include stainless steel construction, 1/4" BSP female sockets and laser cut profiles to minimise contamination build-up. Heavy Duty brackets feature a C-section design which provides a secure holding system for the lubricator covers.

The C-section design is suited to installations which are to be subjected to water wash down, for applications such as slurry pumps in coal preparation plants. This design also provides greater mounting flexibility due to the 4-slot design of the bracket mounting face.

Product

SKU	MB02C
Description	2 point heavy duty c-section bracket 304SS with heavy duty cover and support flange per point
Range	Brackets for perma STAR VARIO, STAR CONTROL

Content

1 x 2 point heavy duty c-section bracket 304SS	2 x Support flange
2 x Heavy duty cover
